Ordinance 18120

Proposed No. 2015-0278.2

Sponsors Lambert and Phillips

1 AN ORDINANCE accepting a petition, establishing
2 boundaries and ordering an election to determine formation
3 of a proposed irrigation district in King County to be
4 known as the Snoqualmie Valley Watershed Improvement
5 District and for the purpose of electing directors for the
6 district.

7 STATEMENT OF FACTS:

- 8 1. Chapter 87.03 RCW authorizes the formation of an irrigation district
9 for the purpose of irrigation of land.
- 10 2. RCW 87.03.019 allows irrigation districts to participate in and expend
11 revenue on cooperative watershed management actions, for the purposes
12 of water supply, water quality and water resource and habitat protection
13 and management.
- 14 3. To initiate the formation of an irrigation district, a petition signed by
15 the requisite number of property owners and containing the information
16 required by RCW 87.03.020 shall be presented to the county legislative
17 authority, together with a bond in a sum double the amount of the probable
18 cost of organizing the proposed district.

19 4. On June 30, 2015, a petition, accompanied by a cash bond, was filed
20 with the King County council requesting that necessary steps be taken to
21 organize an irrigation district in King County to be known as the
22 Snoqualmie Valley watershed improvement district.

23 5. Subsequent to filing the petition, petitioners requested the council
24 correct the petition by modifying the legal description and adding
25 additional nominations for initial board members, and petitioners provided
26 the council a list of parcels to be included within the boundaries of the
27 district, including acreage, tax parcel number, an address and an owner's
28 name. Included on that list are parcels owned by King County. The
29 corrected petition is Attachment A to this ordinance.

30 6. In accordance with the terms of the petition, property owned by
31 governmental entities and parcels of less than two acres are to be excluded
32 from the proposed district and therefore owners of such properties shall
33 not be eligible to vote in the election of whether an irrigation district shall
34 be formed and for the election of the directors.

35 7. The parcel list provided by the petitioners was updated with current
36 information, including taxpayer name and address and parcel size
37 provided by the department of assessments. The parcel list was also
38 modified to remove government-owned parcels and parcels less than two
39 acres in size. The updated parcel list is Attachment B to this ordinance.

40 8. Subsequent to filing the corrected petition, one person requested in
41 writing to be removed from the nominations for initial board members.

42 9. The petitioners complied with RCW 87.03.001 and chapter 36.93 RCW
43 and the petitioners filed a notice of intention to the boundary review board
44 on August 4, 2015. As part of the review by the boundary review board,
45 the petitioners filed an updated legal description for the boundaries of the
46 proposed district. The updated legal description is Attachment C to this
47 ordinance. The proposed action of creating the irrigation district was
48 deemed approved by the boundary review board on September 17, 2015.

49 10. Once the district is created, the processes in chapter RCW 87.03 shall
50 apply to any petition to add or exclude parcels from the district.

51 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

52 SECTION 1. The corrected petition requesting organization of the Snoqualmie
53 Valley watershed improvement district, Attachment A to this ordinance, is hereby
54 accepted as presented.

55 SECTION 2. A cash bond, in a sum double the amount of the probable cost of
56 organizing the proposed irrigation district, is hereby accepted as sufficient.

57 SECTION 3. The proposed irrigation district shall be known as the Snoqualmie
58 Valley watershed improvement district.

59 SECTION 4. The boundaries of the proposed district shall be as set forth in
60 Attachment C to this ordinance.

61 SECTION 5. The ballot shall reflect the nominees for the initial board members
62 as shown in Attachment A to this ordinance, except that Steven Van Ess shall not be
63 included as a nominee.

64 SECTION 6. The parcel list, Attachment B to this ordinance, shall be used by the
65 clerk of the council as the list of eligible voters owning qualifying property under the
66 petition for the election of whether an irrigation district shall be formed and for the
67 election of the directors.

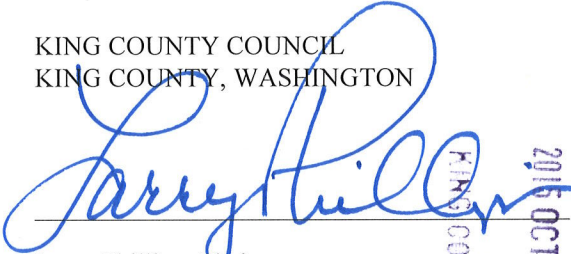

68 SECTION 7. The election shall be carried out in the manner detailed in

69 Attachment D to this ordinance and in accordance with chapter 87.03 RCW. The election
70 date of November 24, 2015, is hereby set.
71

Ordinance 18120 was introduced on 7/13/2015 and passed as amended by the
Metropolitan King County Council on 9/28/2015, by the following vote:

Yes: 9 - Mr. Phillips, Mr. von Reichbauer, Mr. Gossett, Ms. Hague,
Ms. Lambert, Mr. Dunn, Mr. McDermott, Mr. Dembowski and Mr.
Upthegrove
No: 0
Excused: 0

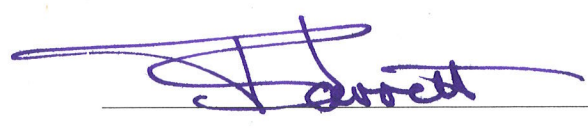

KING COUNTY COUNCIL
KING COUNTY, WASHINGTON

Larry Phillips, Chair

ATTEST:

Anne Noris, Clerk of the Council

APPROVED this 7th day of October, 2015.

Dow Constantine, County Executive

Attachments: A. Petition, B. Parcel List revised September 21, 2015, C. Legal Description revised
September 21, 2015, D. The Election Process revised September 21, 2015

**PETITION
FOR FORMATION OF THE
SNOQUALMIE VALLEY WATERSHED IMPROVEMENT DISTRICT**

RECEIVED
2015 JUN 30 PM 2:11
CLERK
KING COUNTY COUNCIL

TO: King County Council, King County, Washington.

THE UNDERSIGNED HOLDERS OF TITLE TO, OR EVIDENCE OF TITLE TO LAND SUSCEPTIBLE OF IRRIGATION, who constitute at least fifty in number or who collectively own at least a majority title to land within the boundaries of the hereinafter described lands, hereby petition the King County Council of King County, Washington for the formation of the Snoqualmie Valley Watershed Improvement District ("WID"), pursuant to Chapter 87.03 RCW and upon the showing of the following:

Description of Real Property

The legal description and boundaries for the WID were developed by using the lands within the King County Agricultural Production District, with the addition of parcels immediately adjacent to the district if they are currently in the Ag/Farm Open Space taxation program under RCW Chapter 84.34, and with the addition of parcels that have evidence of being currently in production, based on the King County Department of Natural Resources 2013 Ag Land Use Data.

A description of the lands to be included in the operation of the district, in legal subdivisions or fractions thereof, and the name of the county or counties in which lands are situated is as follows: SEE ATTACHMENT "A":

**Statement of Sources of Water Supply
And Plan of Improvements**

The WID is being proposed to address irrigation water supply, water quality, agricultural drainage, and other issues affecting agricultural landowners consistent with the authority of such districts under Chapter 87.03. RCW

Landowners who currently hold water rights from ground or surface water sources will continue to own and use those water rights to self-supply their water, and the creation of the proposed WID will create no authority in the WID over water rights held by landowners. The District will be developing and implementing new water supply options for those landowners

who lack adequate water rights. Such water supplies developed by the WID could include water supplies developed through water right permitting, transfers, banking, and mitigation programs. The sources of water supply will include ground and surface waters within Washington State Water Resource Inventory Area 7.

The development of these new water supply options will be subject to Washington's water resources code, Chapters 90.03 and 90.44 RCW, including all necessary reviews and approval by the Washington Department of Ecology, which includes the protection of other water rights from impairment.

The proposed WID will prepare plans for watershed improvements including projects that improve drainage of agricultural lands, reduce flooding, help to improve instream flows, promote efficient irrigation water management practices and enhance water quality and fish habitat.

Number of Directors and Name of District

The number of directors desired for the administration of the affairs of the WID shall be 5. The District shall be known and designated as the Snoqualmie Valley Watershed Improvement District.

Purpose of the District

The purposes of the WID shall be for developing water supply options for agricultural landowners; implementing water quality protection measures; improving drainage and other conditions that limit the uses of land for agricultural purposes. The WID shall also act on behalf of landowners to provide cooperative watershed management functions as authorized by RCW 87.03.019 and RCW 39.34.210, which establish the authority for the WID to participate in actions and agreements for the purposes of water supply, water quality, and water resource and habitat protection and management.

The District is proposed for the performance of all things necessary to enable the district to exercise the powers granted in Chapter 87.03 RCW.

WHEREFORE, THE UNDERSIGNED respectfully pray that the Clerk of the King County Council, Washington, fix a time and place for hearing on this Petition and take all steps necessary to organize said district.

Dated this ____ day of _____, 2015.

who lack adequate water rights. Such water supplies developed by the WID could include water supplies developed through water right permitting, transfers, banking, and mitigation programs. The sources of water supply will include ground and surface waters within Washington State Water Resource Inventory Area 7.

The development of these new water supply options will be subject to Washington's water resources code, Chapters 90.03 and 90.44 RCW, including all necessary reviews and approval by the Washington Department of Ecology, which includes the protection of other water rights from impairment.

The proposed WID will prepare plans for watershed improvements including projects that improve drainage of agricultural lands, reduce flooding, help to improve instream flows, promote efficient irrigation water management practices and enhance water quality and fish habitat.

Number of Directors and Name of District

The number of directors desired for the administration of the affairs of the WID shall be 5. The District shall be known and designated as the Snoqualmie Valley Watershed Improvement District.

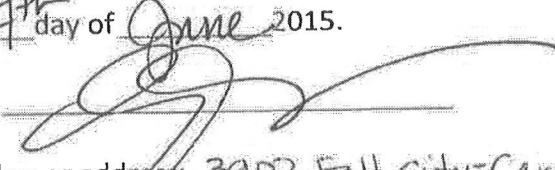

Purpose of the District

The purposes of the WID shall be for developing water supply options for agricultural landowners; implementing water quality protection measures; improving drainage and other conditions that limit the uses of land for agricultural purposes. The WID shall also act on behalf of landowners to provide cooperative watershed management functions as authorized by RCW 87.03.019 and RCW 39.34.210, which establish the authority for the WID to participate in actions and agreements for the purposes of water supply, water quality, and water resource and habitat protection and management.

The District is proposed for the performance of all things necessary to enable the district to exercise the powers granted in Chapter 87.03 RCW.

WHEREFORE, THE UNDERSIGNED respectfully pray that the Clerk of the King County Council, Washington, fix a time and place for hearing on this Petition and take all steps necessary to organize said district.

Dated this 7th day of June 2015.

**PETITION
FOR FORMATION OF THE
SNOQUALMIE VALLEY WATERSHED IMPROVEMENT DISTRICT**

RECEIVED
2015 JUN 30 PM 2:12
CLERK
KING COUNTY COUNCIL

TO: King County Council, King County, Washington.

THE UNDERSIGNED HOLDERS OF TITLE TO, OR EVIDENCE OF TITLE TO LAND SUSCEPTIBLE OF IRRIGATION, who constitute at least fifty in number or who collectively own at least a majority title to land within the boundaries of the hereinafter described lands, hereby petition the King County Council of King County, Washington for the formation of the Snoqualmie Valley Watershed Improvement District ("WID"), pursuant to Chapter 87.03 RCW and upon the showing of the following:

Description of Real Property

The legal description and boundaries for the WID were developed by using the lands within the King County Agricultural Production District, with the addition of parcels immediately adjacent to the district if they are currently in the Ag/Farm Open Space taxation program under RCW Chapter 84.34, and with the addition of parcels that have evidence of being currently in production, based on the King County Department of Natural Resources 2013 Ag Land Use Data.

A description of the lands to be included in the operation of the district, in legal subdivisions or fractions thereof, and the name of the county or counties in which lands are situated is as follows: SEE ATTACHMENT "A":

**Statement of Sources of Water Supply
And Plan of Improvements**

The WID is being proposed to address irrigation water supply, water quality, agricultural drainage, and other issues affecting agricultural landowners consistent with the authority of such districts under Chapter 87.03. RCW

Landowners who currently hold water rights from ground or surface water sources will continue to own and use those water rights to self-supply their water, and the creation of the proposed WID will create no authority in the WID over water rights held by landowners. The District will be developing and implementing new water supply options for those landowners

who lack adequate water rights. Such water supplies developed by the WID could include water supplies developed through water right permitting, transfers, banking, and mitigation programs. The sources of water supply will include ground and surface waters within Washington State Water Resource Inventory Area 7.

The development of these new water supply options will be subject to Washington's water resources code, Chapters 90.03 and 90.44 RCW, including all necessary reviews and approval by the Washington Department of Ecology, which includes the protection of other water rights from impairment.

The proposed WID will prepare plans for watershed improvements including projects that improve drainage of agricultural lands, reduce flooding, help to improve instream flows, promote efficient irrigation water management practices and enhance water quality and fish habitat.

Number of Directors and Name of District

The number of directors desired for the administration of the affairs of the WID shall be 5. The District shall be known and designated as the Snoqualmie Valley Watershed Improvement District.

Purpose of the District

The purposes of the WID shall be for developing water supply options for agricultural landowners; implementing water quality protection measures; improving drainage and other conditions that limit the uses of land for agricultural purposes. The WID shall also act on behalf of landowners to provide cooperative watershed management functions as authorized by RCW 87.03.019 and RCW 39.34.210, which establish the authority for the WID to participate in actions and agreements for the purposes of water supply, water quality, and water resource and habitat protection and management.

The District is proposed for the performance of all things necessary to enable the district to exercise the powers granted in Chapter 87.03 RCW.

WHEREFORE, THE UNDERSIGNED respectfully pray that the Clerk of the King County Council, Washington, fix a time and place for hearing on this Petition and take all steps necessary to organize said district.

Dated this 3 day of June 2015.

And Plan of Improvements**

The WID is being proposed to address irrigation water supply, water quality, agricultural drainage, and other issues affecting agricultural landowners consistent with the authority of such districts under Chapter 87.03. RCW

Landowners who currently hold water rights from ground or surface water sources will continue to own and use those water rights to self-supply their water, and the creation of the proposed WID will create no authority in the WID over water rights held by landowners. The District will be developing and implementing new water supply options for those landowners

who lack adequate water rights. Such water supplies developed by the WID could include water supplies developed through water right permitting, transfers, banking, and mitigation programs. The sources of water supply will include ground and surface waters within Washington State Water Resource Inventory Area 7.

The development of these new water supply options will be subject to Washington's water resources code, Chapters 90.03 and 90.44 RCW, including all necessary reviews and approval by the Washington Department of Ecology, which includes the protection of other water rights from impairment.

The proposed WID will prepare plans for watershed improvements including projects that improve drainage of agricultural lands, reduce flooding, help to improve instream flows, promote efficient irrigation water management practices and enhance water quality and fish habitat.

Number of Directors and Name of District

The number of directors desired for the administration of the affairs of the WID shall be 5. The District shall be known and designated as the Snoqualmie Valley Watershed Improvement District.

Purpose of the District

The purposes of the WID shall be for developing water supply options for agricultural landowners; implementing water quality protection measures; improving drainage and other conditions that limit the uses of land for agricultural purposes. The WID shall also act on behalf of landowners to provide cooperative watershed management functions as authorized by RCW 87.03.019 and RCW 39.34.210, which establish the authority for the WID to participate in actions and agreements for the purposes of water supply, water quality, and water resource and habitat protection and management.

The District is proposed for the performance of all things necessary to enable the district to exercise the powers granted in Chapter 87.03 RCW.

WHEREFORE, THE UNDERSIGNED respectfully pray that the Clerk of the King County Council, Washington, fix a time and place for hearing on this Petition and take all steps necessary to organize said district.

Dated this 1 day of JUNE 2015.

THE UNDERSIGNED HOLDERS OF TITLE TO, OR EVIDENCE OF TITLE TO LAND SUSCEPTIBLE OF IRRIGATION, who constitute at least fifty in number or who collectively own at least a majority title to land within the boundaries of the hereinafter described lands, hereby petition the King County Council of King County, Washington for the formation of the Snoqualmie Valley Watershed Improvement District ("WID"), pursuant to Chapter 87.03 RCW and upon the showing of the following:

Description of Real Property

The legal description and boundaries for the WID were developed by using the lands within the King County Agricultural Production District, with the addition of parcels immediately adjacent to the district if they are currently in the Ag/Farm Open Space taxation program under RCW Chapter 84.34, and with the addition of parcels that have evidence of being currently in production, based on the King County Department of Natural Resources 2013 Ag Land Use Data.

A description of the lands to be included in the operation of the district, in legal subdivisions or fractions thereof, and the name of the county or counties in which lands are situated is as follows: SEE ATTACHMENT "A":

**Statement of Sources of Water Supply
And Plan of Improvements**

The WID is being proposed to address irrigation water supply, water quality, agricultural drainage, and other issues affecting agricultural landowners consistent with the authority of such districts under Chapter 87.03. RCW

Landowners who currently hold water rights from ground or surface water sources will continue to own and use those water rights to self-supply their water, and the creation of the proposed WID will create no authority in the WID over water rights held by landowners. The District will be developing and implementing new water supply options for those landowners

who lack adequate water rights. Such water supplies developed by the WID could include water supplies developed through water right permitting, transfers, banking, and mitigation programs. The sources of water supply will include ground and surface waters within Washington State Water Resource Inventory Area 7.

The development of these new water supply options will be subject to Washington's water resources code, Chapters 90.03 and 90.44 RCW, including all necessary reviews and approval by the Washington Department of Ecology, which includes the protection of other water rights from impairment.

The proposed WID will prepare plans for watershed improvements including projects that improve drainage of agricultural lands, reduce flooding, help to improve instream flows, promote efficient irrigation water management practices and enhance water quality and fish habitat.

Number of Directors and Name of District

The number of directors desired for the administration of the affairs of the WID shall be 5. The District shall be known and designated as the Snoqualmie Valley Watershed Improvement District.

Purpose of the District

The purposes of the WID shall be for developing water supply options for agricultural landowners; implementing water quality protection measures; improving drainage and other conditions that limit the uses of land for agricultural purposes. The WID shall also act on behalf of landowners to provide cooperative watershed management functions as authorized by RCW 87.03.019 and RCW 39.34.210, which establish the authority for the WID to participate in actions and agreements for the purposes of water supply, water quality, and water resource and habitat protection and management.

The District is proposed for the performance of all things necessary to enable the district to exercise the powers granted in Chapter 87.03 RCW.

WHEREFORE, THE UNDERSIGNED respectfully pray that the Clerk of the King County Council, Washington, fix a time and place for hearing on this Petition and take all steps necessary to organize said district.

Dated this 15th day of June 2015.

Signature: Colleen Granger

from impairment.

The proposed WID will prepare plans for watershed improvements, including projects that improve drainage of agricultural lands, reduce flooding, help to improve in-stream flows, promote efficient irrigation water management practices and enhance water quality and fish habitat.

Number of Directors and Name of District

The number of directors desired for the administration of the affairs of the WID shall be 5. The District shall be known and designated as the Snoqualmie Valley Watershed Improvement District.

Purpose of the District

The purposes of the WID shall be for developing water supply options for agricultural landowners; implementing water quality protection measures; improving drainage and other conditions that limit the uses of land for agricultural purposes. The WID shall also act on behalf of landowners to provide cooperative watershed management functions as authorized by RCW 87.03.019 and RCW 39.34.210, which establish the authority for the WID to participate in actions and agreements for the purposes of water supply, water quality, and water resource and habitat protection and management.

The District is proposed for the performance of all things necessary to enable the district to exercise the powers granted in Chapter 87.03 RCW.

WHEREFORE, THE UNDERSIGNED respectfully pray that the Clerk of the King County Council, Washington, fix a time and place for hearing on this Petition and take all steps necessary to organize said district.

THE ELECTION PROCESS

THE ELECTION

The King County Council is responsible for conducting the district's formation election. Pursuant to RCW 87.03.032, the Council elects to use vote by mail to conduct the district formation election and election of directors. An election day of November 24, 2015, has been selected and ballots must be delivered to the Clerk of the Council or mailed with a postmark by that date and received by the Clerk by November 30, 2015 to be counted toward the election.

THE BALLOT

The County will prepare the ballots, ballot envelopes, and instructions indicating how joint ownership and community property votes are cast as well as a request to forward the ballot to the property owner if different from addressee. Voting rights shall be allocated as follows: two votes for each five acres of assessable land or fraction thereof. The chart below provides examples of how many votes parcels of differing acreage are entitled to receive. Additionally, electors (property owners) may receive more than one ballot if they own multiple parcels within the proposed district.

Acres From	Acres To	Number of Votes
2.0	5.0	2
5.1	10.0	4
10.1	15.0	6
15.1	20.0	8
20.1	25.0	10
ETC.		

Ballots will be coded to indicate how many votes each ballot is worth.

The ballot shall contain the following language:

"Irrigation District – YES"

"Irrigation District – NO"

The names of the persons to be voted for as directors of the district.

To be counted in this election, ballots must conform to these requirements and the voting instructions will advise the electors of the importance of the following requirements:

1. Voted ballots must be sealed and placed in a ballot envelope (provided) and the ballot envelope must be sealed in a return certification envelope (provided). The certification envelope will contain a "voters certificate" and a "witness certification" on the back of the envelope as follows:

Voters Certification

I certify as true, under penalty of perjury under the laws of the State of Washington, that I am a landowner within the proposed district who is 18 years or more of age, a citizen of the United States, a resident of the State of Washington, and hold title or evidence of title to assessable land in the proposed district. If the landowner is a corporation, I certify as true, under penalty of perjury under the laws of the State of Washington, that I am a duly authorized agent for the purpose of voting on this election by the corporation.

2. Both the "voter's certification" and the "witness certification" must be completed and signed as indicated. Unsigned or unwitnessed ballots will not be counted.

3. Ballots must be hand delivered to the King County Clerk's Office prior to 4:30 p.m. on November 24, 2015; or mailed to the Clerk, postmarked no later than midnight on November 24, 2015, and received by the Clerk by 4:30 p.m. on November 30, 2015.

Ballots will be kept unopened and secure under the responsibility of the Clerk until the time in which ballots may be received is closed. The Council appoints the Clerk and assigned staff to proceed at once to determine whether the voters submitting ballots are qualified to vote and to count and tally the votes of those determined to be qualified.

The King County Council will meet on December 7, 2015, to canvass the returns. If it appears that at least two-thirds of all votes cast are in favor of the district, the Council shall by ordinance declare the district duly organized and shall declare the qualified persons receiving the highest number of votes to be duly elected directors and shall cause a certified copy of the ordinance to be filed for record in the offices of the Elections Director and the Assessor.
